BY DOING + BEING

Bold and Innovative • Unlocking
Resource • Constant Relationship
Development • Facilitating • Creating
Pathways Through Supporting •
Collaborating as much as leading •
An eye for community building
opportunity.

SPLICE IN AUCKLAND'S CITY CENTRE

An urban neighbourhood that is well connected, compassionate and an exemplar to other intensifying parts of greater Auckland.

SPLICE AS A MOVEMENT

The building of an urban neighbourhood in the city centre where everyone is a neighbour, a stakeholder, a “splicer” with the potential to bind their unique strand of the neighbourhood to those of others to create a greater whole.

SPLICE AS AN ORGANISATION

A small team within Methodist Mission Northern who are facilitators, encouragers, relationship builders with an eye for opportunity to build a healthier community

Splice

Courage Compassion Community

SPLICE CUPPA

The Splice ‘Cuppa’ is an informal meet-up for people of the community to talk, listen to speakers, sample music and enjoy free food and tea. Held bi-monthly in a different café it usually attracts around 40 people.

KIRI

Kiri McCutcheon, an event manager with Auckland Council put her trust in Splice to provide creative ideas that would engage people in the festival, to celebrate the Myers Park Centennial. This relationship has resulted in continuing collaboration with Kiri for other council events and has changed the way community is involved in Council events in the city centre.

SPLICE BBQ

The evening BBQ on Wellesley Street was a collaboration between Auckland Council, Splice (providing BBQ, Chess & Buskers) and Sew Love. Hosted by volunteers, it was enjoyed by city workers, residents & streeties, who sampled food, enjoyed music, played chess and learnt to knit!
